The plan pursued at these revival services in simplicity itself. At the opening of each service cards are distributed in the congregation on which is printed a few lines expressive of a determination to become a Christian. Below these are blanks for a signature, address, and church preference. Those who desire to become Christians are simply asked to fill out the blanks and the cards are collected at the close of

United States' Request For Open Door Meets an Obstruction.

Chicago, Dec. I.—A special to the Tribune from Washington, D. C., says. Tribune from Washinston, D. C. says:
Inquiry among foreign representatives develops the fact that the open
door policy of the administration has
received something of a check from the
European powers, who wish to drive a
sharp bargain with respect to the Phillippines. They were asked for written
assurances that in case of the partition
of China they would maintain the open
door policy in their respective spheres
of influence.

"If we do," they answer in effect,
though not as yet officially, "will there
also be an open door in the Philippines?"

On an affirmative answer to file

On an affirmative answer to this

United States internal revenue and customs laws must be applied to them equally with the rest of the country. The report of the commission on this point is in the possession of Secretary Root.

Under the constitutional provision that "all duties, imposts and excises shall be uniform throughout the United States," the insular commission, in Hed States," the insular commission, in an elaborate brief citing precedents and decisions, found it would be impossible to prevent the extension of the tariff laws to the Philippines, Porto Rico and Hawaii. The reports holds that if the islands become part of the United States the open door policy can not be applied to them except during the period of military occupation and purely as a war measure.

purely as a war measure.

If military rule in the Philippines is continued indefinitely or if a protectorcontinued indefinitely or if a protectornte is established, a tariff exclusive to
the islands and against the United
States, as well as Great Britain,
France, Germany and Russia could be
applied, but not otherwise. This doctrine may not be held by the administration, but it is part of a strong official report, and the European powers have become aware of that fact.

SOUTHERN REPUBLICANS Will Probably Have Less Representation in National Convention Herenfter.

United States Senator N. B. Scott, national committeeman for West Virginia, favors a change. Judge A. H. Horton is authority for the statement that Balle Waggener, the well known railroad attorney and politician of Atchison, is in a fair way

to become a rival in riches of Stratton, the Colorado mining king.
Mr. Waugener is said to have struck it very rich in a mine in the vicinity of Stratton's famous "Independence mine in Colorado. The mine was purchased some time ago by a trio composed of Mr. Waggener, his son and James Orr, nis law partner.

On an affirmative answer to this question is said to depend some, if not all of the desired assurances from the European powers. This has placed the administration in a quandary, so it is said, because promises of an open door policy in the Philippines can not be given at the present time.

Foreign diplomats have learned of the fact that a portion of the report of the insular commission was not included in the published synopsis. The commission, in its investigation of the tariff question as applied to the new possessions, came to the conclusion that when these island are once brought under the general civil power of the fact that supposed to the conclusion that when these island are once brought under the general civil power of the fact that is supposed to be a big strike of gold had been made, and if it develops a generated it will make him a million. expected it will make him a million-

At the First M. E. church the Thanksgiving sermon was preached by Dr. Fisk, pastor of the First Congregational church, from the text, "There shall they rehearse the righteous acts of the Lord, even his rule in Israel."

During the sermon a very unusual in-cident happened—for a church service. The preacher was interrupted by ap-plause from the congregation. After reviewing some of the blessings which the nation has to be gruteful for, Dr. Fisk had called attention to evils which exist.

exist.

"Oh, the pity of it," be said, 'that we are compelled to interrupt our Thanksgiving gladness by the intrusion of noting certain retrogressive tendencies, eddies in the forward movement, but which, none the less, we are bound to resist. I summarize the types of degeneracy in few terms, but appeal to citizenship to keep an eye upon them. The effort to disfranchise the negro; the unblushing encroachments of prize fighting, unrebuked by the press, in deed abetted by the news sellers; the theft of the Lord's day for professional basebalt, golf and athletics.

"Only last night," he continued, 'there occurred almost in sight of the home of the noted author of 'In His Steps,' one of these disgraceful affairs, in which men took delight in the brutal pastime of cockfighting. And the morning press dished it up for us, round by round, for our breakfasts this morning. This is he sort of stuff that is placed before our children."

It was at this point that the sermon was interrupted by appliause from the andlence.

Special services were held at Grace cathedral, with a sermon by Dean Sykes. In North Topeka Canon Bywater preached at the union services at the North Congregational church. "Oh, the pity of it," he said, "that we are compelled to interrupt our Thanksgiving gladness by the intrusion
